

Advanced Learning with the Cath Lab Team at Atrium Medical Center

Tag along with our cath lab team as they assess and perform catheterizations in Atrium Medical Center's cath lab. You'll spend four hours in the cath lab and receive State of Ohio EMS continuing education credits in Cardiology.

Objectives:

- The student can describe the coronary anatomy of the heart
- The student can describe the pathophysiology of the heart
- The student can describe why IV access and arterial access for PCI and which arm is important

Call on our EMS Coordinator to schedule your time:
