

CompuNet Clinical Laboratories is your Trusted Laboratory Partner... Every patient. Every result. Every time. Founded in 1986, CompuNet is a full-service clinical laboratory, serving physicians, hospitals, and health care industry organizations throughout the region. A subsidiary of Premier Health, CompuNet offers health care providers comprehensive laboratory resources, including complex and specialized testing capabilities.

CompuNet performs over 8 million lab tests per year and offers a test menu of nearly 2,000 tests.

Medical directorship and pathology services are provided by Valley Pathologists.

CompuNet offers an active educational outreach program that provides clinical rotations for medical lab science students and phlebotomists.

CompuNet consists of a large network of more than 30 patient service centers throughout Ohio.

CompuNet provides rapid response laboratories within many oncology/hematology practices to provide rapid results for patients with cancer.

CompuNet manages all Premier Health hospital labs and provides lab services throughout the Premier Health system.

CompuNet offers full-service lab testing capabilities. Some of our lab's services include anatomical pathology; infectious disease testing and immunology; toxicology (drug monitoring and drug abuse); immunohematology; hematopathology; and next gen sequencing.

CompuNet operates 19 Clinical Laboratory Improvement Amendments (CLIA) under the guidance of Valley Pathology.
