

DNP Project Process

1. Set up an initial consultation with Dr. Pat O'Malley, Nurse Scientist (NS) at pomalley@premierhealth.com and/or Dr. Holly Hall, Nurse Researcher (NR) at hhall@premierhealth.com.
 - a. Provide a written proposed project plan, plan for implementation, status of university approval, and complete student approval for Premier Health (PH) Learning Institute.
 - b. Resources and direction will be provided for possible approvals.
 - i. It may take between 60 and 90 days before the project can be approved.
2. Provide a proposal for your project to the Nurse Scientist or Nurse Researcher (NS and/or NR) for review described in [Figure 1](#). This document will help the NS and/or NR in the PH approval process. Factors impacting approval include project impact on operations, impact on vulnerable populations (employees, patients, and students), financial impact, and confidentiality. **Important: To view steps in Figure 1, go to toolbar (bottom left corner)->View->Presentation->Start->Next. Or search topic->enter.**
 - a. A meeting between NS and/or NR, Academic Advisor, PH Preceptor, and student to accomplish a written verification for the DNP Project to be completed at PH.
3. If your project proposal is approved by the NS and/or NR proceed using the process described in [Figure 1](#).
4. You must contact the NS or NR for any problems or modifications with your project. **Once approved the project document cannot be modified. If modified, it will require an amendment.**
5. **Do not start a project on-site without official approval from the NS or NR.**
