

# Help Your Patients with Knee Pain Find Relief

## Comprehensive Knee Care from Premier Orthopedics

Knee pain can slow down even your most active patients, keeping them from activities they love and complicating everyday tasks. Keep your patients moving and help them find relief by referring them for comprehensive knee care from Premier Orthopedics.

No matter how or why their knees hurt, at Premier Orthopedics your patients can count on:

- The full continuum of care for simple to complex knee issues
- A specialized team with advanced training and experience to diagnose and treat knee problems caused by injury, overuse, or disease
- A personalized, comprehensive treatment plan to help them achieve their desired activity level
- Non-invasive, conservative treatments, including injections, physical therapy, and medications
- Surgical procedures to repair acute injuries, including ACL and meniscus tears
- Advanced cartilage restoration treatments to restore knee function, reduce pain, and delay joint replacement
- Total joint replacements, including robotic-arm assisted joint replacements and minimally invasive techniques

### Easy to Refer

Oakwood/Springboro  
**(937) 312-1701**

Troy  
**(937) 339-1213**

## Experienced Specialists

Premier Orthopedics is one of the largest and highly trained orthopedic and sports medicine groups in Southwest Ohio. Our team includes board-certified and fellowship-trained specialists in complex musculoskeletal challenges. You can trust your patients' knees to the same doctors and surgeons who care for the University of Dayton Flyers, Wright State Raiders, and many area high school athletes.

## Advanced Treatments

Our practice offers patients advanced treatments for every stage of knee pain care:

- Platelet rich plasma (PRP) and stem cell injections for knee pain management
- Matrix-induced autologous chondrocyte implantation (MACI) transplant, a two-step surgical procedure using the patient's own cartilage, to reduce pain and preserve knees
- Robotic-arm assisted joint replacements including total knee and partial knee

## Convenient Locations

With 13 offices in Southwest Ohio, your patients will find a Premier Orthopedics location close to where they live or work. We even offer walk-in clinics at several of our offices. Please visit our website for hours of operation and locations.
